ABOUT THE INTERNSHIP PROGRAM

At **Analytics Career Connect**, we designed this internship to help students and job seekers bridge the gap between academic knowledge and industry requirements. Our structured program provides practical experience, real-world projects, and mentorship from industry professionals to make you job-ready in data analytics.

THIS PROGRAM IS FOR:

- Freshers looking to enter the data analytics field
- Students from Tier 2, 3, and 4 cities struggling to access quality training
- Professionals looking to upskill and transition into data roles.

Why settle for certificates when you can gain real experience?

WHY THIS PROGRAM?

The biggest challenge for students is the lack of practical knowledge and industry exposure. Traditional courses provide theoretical knowledge, but companies look for experience, problem-solving skills, and real project work. Our program addresses these gaps with:

60% Learning + 40% Real Work – Work on industry projects while learning.

Skilled Mentors – Get guidance from experienced professionals.

Corporate Work Culture – Daily Meeting, team discussions, and goal tracking.

Pay Only After Placement – if you have more than 60% knowledge, there's no registration fee..

We make sure that every student gets an opportunity to gain realworld experience and become job-ready!

HOW DOES IT WORK?

1. Choose Your Path

- Full-Time (3 Months): Ideal for freshers and job seekers.
- Part-Time (6 Months): Suitable for students or working professionals

2. Daily Learning & Projects

- Live sessions, team meetings, and real-world projects.

3. Personalized Mentorship

- 1:1 guidance, resume building, LinkedIn optimization, and interview preparation.

4. Job Readiness Training

- Mock interviews, freelance project exposure, and job referrals

No Upfront Fees – Only Pay After You Get Hired!

What You Will Learn?

The program covers a comprehensive curriculum focused on technical and analytical skills.

Technical Skills

- Excel for Data Analysis
- SQL for Database Queries
- Python for Data Manipulation
- Power BI & Tableau for Visualization

Industry Applications

- E-commerce Analytics
- Financial Data Analysis
- Healthcare Data Management
- Retail Business Intelligence

Career Development

- Data Storytelling & Presentation
- Resume Optimization & LinkedIn Profile Building
- Mock Interview Preparation & Job Assistance

WHAT YOU WILL GET?

- **Hands-on Learning Approach** – 60% practical work, 40% guided learning.
- **Live Client Projects** – Work on industry-specific case studies.
- **Internship Certificate** – Showcase real experience on your resume.
- **Freelance & Industry Exposure** – Top performers may get paid freelance projects.
- **One-on-One Mentorship** – Personalized guidance from industry professionals who actively work with data.
- **100% Placement Support** – Get mock interview training, HR interview tips, and live coding practice. Connect with recruiters from top MNCs and fast-growing startups.
- **Daily Corporate-Style Meetings** – Experience a real working environment with structured meetings, discussions, and goal tracking.

ABOUT THE FOUNDERS

Wasim Patwari – Founder & CEO, Analytics Career Connect

At Analytics Career Connect, our mission is to empower 10 million youth of Bharat by making technical education affordable and accessible to all.

We leverage technology-driven solutions to provide industry-relevant skills, bridging the gap between education and employment.

Our goal is to create equal opportunities for individuals from Tier 2, 3, and 4 cities, ensuring that everyone gets a fair chance to build a career in tech.

We are committed to solving India's unemployment problem by equipping individuals with job-ready skills, mentorship, and freelancing opportunities.

Through internships, mentorship programs, and job assistance, we aim to transform freshers and professionals into high-value industry-ready talent.
